Books promote progress and learning; they entertain, inform and stimulate; they improve focus, analytical skills, vocabulary, mental health and memory.

Shaping the Future of Books will take a deep dive into the workings of this indispensable market and its well-loved products. From printers and their suppliers, to writers, publishers and customers - this event will focus on the whole book value chain.

The 2021 edition of our **Shaping the Future of Print** event is **extra special** because we are organising **TWO** events!

CHAPTER 1: VIRTUAL on 11 February 2021 at 11-12.30h

CHAPTER 2: IN-PERSON in October 2021 at the Frankfurt Book Fair (date TBC)
